

# Alaska Crossings Application Process

## Step 1: Preliminary Screening

Submit the following by fax, email or postal mail **as early as three months prior to your preferred admission date.**

**Once we are within a month of the admission date,** an intake coordinator will call you to update the forms by phone and send them on to clinical and medical staff for review.

Please note that final acceptance into the program is not determined until all three steps are complete.

### Preliminary Screening Forms!

Fill out all forms thoroughly and completely.

### Releases of Information!

If there are other people that Alaska Crossings may need to communicate with (such as therapists, schools, step-parents, etc.), fill out a separate authorization for the release of protected health information form for each individual or agency.

### Previous Clinical History!

If the youth is currently receiving services from another agency, or has received services in the past, our clinician may need to review records before proceeding with the interview. Records requests can sometimes take several weeks, so if you already have any documentation from other agencies (such as an assessment or discharge summary) it is best to send it to us directly.

*We will temporarily secure an admission date once our clinician and medical staff have determined that Alaska Crossings would be an appropriate program for the youth. It is your responsibility to provide all information and documentation requested by the intake coordinator so that this determination can be made.*

## Step 2: Assessment Interview

Once it has been determined that Alaska Crossings would be an appropriate program for the youth, you and the youth will speak with an Alaska Crossings clinician by phone. The clinician may also speak with other individuals or agencies involved in the youth's care.

## Step 3: Admissions Packet

Once the clinician has clinically approved the youth for participation in Alaska Crossings, an intake coordinator will contact you to ask you a few brief questions. The intake coordinator will then fill out the Alaska Crossings Admissions Packet for you and will send it to you by fax or secure email. You and the youth will review the forms and sign/date all signature lines. You may also be asked to submit proof of insurance and/or immunization records at this time.

If at any time in the process a clinician or medical control officer determines that Alaska Crossings is not an appropriate program for the youth, you will be given recommendations for alternative services.

### Have Questions?

Contact our intake coordinators  
Monday-Friday  
8:00am-5:00pm

**ACKNOWLEDGEMENTS**

Alaska Crossings programs require participants to carry 40 pounds each, up to 10 miles at a time, over rough and challenging terrain, as well as paddle for up to several hours at a time.

There are no medical or physical issues that I know of which would affect his/her participation in these activities.
